

VINCE VACCARO

Since the release of his independent EP, and self titled full length album, Vancouver Island's Vince Vaccaro has been capturing the ears and hearts of many, with performances at CMW, New York's famous Mercury Lounge, JunoFest, The Commodore Ballroom, Big Time Out, and Rifflandia Festival.

With a band at the ready, Vince often chose to perform solo, with only a guitar to lean on, exposing the heart of his lyrics and melodies.

"Playing live is always a different deal for me. Sometimes I have a band, and sometimes it's just me and a guitar- I don't know what I like best, but it's so good to have my friends up there with me. The songs are the same either way, I guess it's like two separate colors."

"Forever in Chuck Taylors and a bandana, Vaccaro builds new-school classic rock". His ballads, in particular, feature "soaring, heartfelt moments that are as much Snow Patrol as they are Journey. Sounds pretty irresistible, right? Well, it is". - MTV Buzzworthy

Vince's current single Catch A Fire, a sun-filled and reggae infused gem, is receiving significant airplay on the West Coast, at stations including 100.5 The Peak and 91.3 The Zone. In return for an email address, it can be downloaded at the following URL: vincevaccaro.bandcamp.com, and will be available on iTunes worldwide in mid October.
